

## **Informal Discussion Group Environment (IDGE)**

16<sup>th</sup> October 2009

By Masswe NM

TANGO

**IDGE** is a forum that discusses on environment to;

- > Share information on the environment among the public, non state actors and donors or development partners
- > Take action to improve environment eg by engaging in MKUKUTA review, formulation, implementation, monitoring and evaluation and hence improve the livelihood of the people in Tanzania..

*Does ENVIRONMENTAL ISSUES clearly feature (goals, operational strategies and targets or budget) in the current MKUKUTA/MKUZA? Yes or No?*

### **Why engage in the MKUKUTA review and formulation?**

- > To deepen the understanding of MKUKUTA
- > To identify the success and failures of MKUKUTA
- > To ensure people's concerns and priorities are taken on board
- > To own the process and be committed to it
- > To effectively implement MKUKUTA effectively

### **The role of CSOs in MKUKUTA review and formulation;**

- > To create awareness of stakeholders on MKUKUTA review and formulation at national, zonal, regional and district levels.
- > To participate effectively in the MKUKUTA review and formulation process (know the process )
- > To effectively implement MKUKUTA
- > To monitor and evaluate MKUKUTA implementation in our areas of focus/operations (theme and geographical location).
- > To lobby and advocate for effective MKUKUTA and MKUKUTA implementation, monitoring and evaluation

### **How to engage in MKUKUTA review and formulation?**

- > Understand MKUKUTA and MKUKUTA review processes
- > Identify the existing engagement opportunities
- > Participate (research, discussion meetings, giving alternative reports and ideas/solutions, advise etc) in the present MKUKUTA review and formulation processes
- > Networking with other stakeholders
