

INSTITUTION USER LICENCE FOR OARE BAND 1

The OARE Programme is coordinated by the United Nations Environment Programme (UNEP), Yale University, publishers and other environmental science content owners.. It is a collaboration between the UNEP, Yale, publishers and other content owners intended to provide environmental research and information to non profit academic and research institutions, governmental and policy making departments in low income countries. Access to this information will generally be provided at low cost or in most cases free by the Publisher to institutions in many countries with a Gross National Income (GNI) per capita of US \$1000 or less according to the 2005 World Bank Report (OARE Band 1), and will be governed by the terms of this Licence.

As the OARE Publishers Statement says, publishers will provide “access to a wide range of scientific journals, abstract and indexing databases, and other content resources in the environmental sciences and at prices which reflect the state of national economies in the developing world”. (New York, 28 October 2006)

In order to benefit from this offer, qualifying institutions in Band 1 countries which sign up for OARE access will maintain their existing journal subscriptions, as of the year of their registration with OARE.

This Licence constitutes a formal and legal agreement between
.....(Institution) and the Publishers listed on
Annexe A for access to and use of the on-line environmental research published by the
Publishers and as amended from time to time on the OARE Portal
<http://www.oaresciences.org>. The Licence is exclusive to the Institution named at the head of
the Licence and may not be extended to any other institution or party without the express
written agreement of the Publishers. UNEP and Yale assist eligible institutions to obtain a
licence from the Publishers.
